

For group pampering, your room will be decorated with soft sofa throws and bath mats. Scented with diffusers and candles. We bring relaxation music to set the tone. Each client will have their own individual bubbling adult foot spa and client head band for the duration of their treatments.

For group bookings, we strongly recommend any foot treatment using the foot spa and a mini facial. These treatments work well as part of synchronised group activity. While the feet soak in bubbles and the face masks and cucumbers soak in, we also can incorporate a spa meditation session to guided soft music to set the tone. **A complimentary glass of bubbly and chocolates will also be provided to this combination. Add £50.00 extra for photography backdrop, red carpet, stanchions and photo-booth props for some photo fun!**
